By joining the referral program, **you'll receive 50% provision from monthly service fee for every new customer who signs up** based on your recommendation.

Requirements

You must have a PayPal account to receive payments from us.

Sign up and start referring today

Fill up [this contact form](#) and we will get back to you.

How It Works

As soon as you become our reseller you will get a unique referral code. And you can start referring Mobile Attendance.

Trial Activation

When a potential customer downloads application Mobile Attendance and activates the service, there is a field for a referral code.

If he enters your referral code we know that **the potential customer came through you**. You will receive a notification email that the customer activated trial using your referral code.

Paid Service

If the customer purchases the service during the trial and becomes our customer you will receive another notification email.

The day when the customer activates the paid service is set as the bill day and the billing period starts. First invoice is sent to the customer next month on its bill day. You will receive a copy of the invoice to know how much we billed him.

For example if a customer signs up for the paid service on 11th of November, he receives first invoice on 11th of December.

Invoice must be paid within 14 days otherwise service is suspended.

First Month 50% Discount

If a customer signs up with a valid referral code he gets 50% discount for the first month. This is actually an incentive for potential customers to use the referral code.

And you must clearly articulate this - USE THIS REFERRAL CODE AND GET 50% DISCOUNT FOR THE FIRST MONTH.

To motivate the users to use your referral code. See banner at the end.

Provision

We will give you 50% provision only if the customer pays the invoice. Again you will be notified via an email when he pays and you will receive the amount we will pay you.

This amount will be stored in shared Google Spreadsheets for reference how much we need to pay you and how much we paid you already.

Payments

Payments are done only via PayPal as soon as you accumulate enough money. Typically it is 50 EURO.

So you will not get provision immediately as soon as a customer pays but as soon as you have reached agreed amount.

Taxation

If you are a business entity then you will get 50% and you will send us an invoice for the amount we paid you. So we can include it into our accountancy.

If you are not registered for taxation and you cannot issue an invoice for us we have to tax the 50% provision with 20% income tax.

An example:

A customer has 20 employees and he signs up for the 1 minute processing speed. Monthly service fee is 19 EURO. Provision for you is 9 EURO.

If you are a business entity you will issue an invoice for 9 EURO and we will pay you 9 EURO. If you are not a business entity we tax the 19 EURO with 20% income tax => 3.8 EURO and you will get 50% provision from 15.2 EURO what is 7.6 EURO.

As mentioned above we will not pay you every time a customer pays. Only if you accumulate certain amount of money. Minimum 50 EURO. Then you issue an invoice for 50 EURO and we pay you 50 EURO.

Sample Banner

We can provide you with banners with your referral code. You can put these banners on your website and without any extra work get paid on monthly basis.

Referral code:

LIFTED

- activate service **MOBILE ATTENDANCE**
- use referral code **LIFTED**
- get **50% DISCOUNT** for the first month
